Week 7 Team Meeting Minutes

Date: 15/9/2021
Time: 10am
Venue: online conference call
Present: all
Minutes: Isaac

Meeting commences at 10:00am

Rodney	Asks for any work done
Isaac	[Demonstrates progress made on the physics framework]
Isaac	Yet to implement collisions
Rodney	Asks if anyone else has made progress
Matt	Is still working on 3D environment. Haven't gone into lab to take measurement yet.
Dhruv	Haven't done much
Rodney	Haven't done much
Rodney	Emailed coordinator about mentor meeting – we are excused for the last mentor meeting, but should ensure the meeting happens next time.
Rodney	Next meeting we should email him early
Rodney	Sprint 2 – we need to show our current progress
Isaac	We need to implement collisions at least
Isaac	[Goes through user stories]
Rodney	We need to deliver basic working prototype – show where the project currently is
Isaac	We should all get familiar with the framework, so we can work independently
Dennis	Very important to use separate branches on github
Dhruv	We need to document as we go
Rodney	The documentation is auto-generated – we only need to comment our code very well
Josh	Is planning to update particle class
Rodney	Will do collisions
Dhruv	Need to have a basic implementation for the client meeting next Wednesday
Dhruv	Recommends using git issues

Rodney   We will use it

Isaac   Rodney can remove walls

Rodney   We need more meetings next week

Meeting formally closes at 10:30am
